

Report and Support

How reporting works for staff who submit a referral on behalf of themselves or another member of staff

When you use Report and Support to tell us about something that has happened, this is how we'll support you:

Your report is reviewed by the Staff Report + Support team and if appropriate, triaged to your Local HR Team

A member of your local HR team will reach out to you via the email address you provide

We will arrange a call with you to offer confidential support and advice

In the call, we will discuss appropriate routes for resolution and signpost to wellbeing supports available.

We will be a point of contact for any future questions or support needed while resolving your concerns.

You also have the option to report anonymously. Here's how we'll handle your information:

Your report is reviewed by the Staff Report + Support Team

The information you provide helps us understand issues within the university and guides our prevention efforts.
