

Report and Support

How reporting works and how we'll support you

When you use Report and Support to tell us about something that has happened, this is how we'll support you:

External parties referring in/parent/family

Referrals may be received from external agencies, family, friends, or other concerned third parties regarding a Cardiff University student

Student consent is encouraged where possible; if not obtained, reasons should be given

Where appropriate, the student will be informed of the referral, including the source and nature of concerns

A trauma-informed practitioner or administrative team member may contact the referrer for further information if needed

Due to confidentiality, updates on actions taken are generally not provided without the student's consent

If the referral involves a named staff member, Human Resources will be consulted as appropriate

If you would like to speak to someone, please choose to report with contact details.
